STEAMERS

The Characters used for Classification are:—

***A1** Iron vessels built with thicker plating than Rules *now* require.

A1 A1 A1 Iron Ships built according to Rules in force between 1864 & 1871.

A1 Iron vessels built for a special purpose.

100A1 95A1 } Ships built of Iron or Steel
90A1 85A1 } according to the Rules for
80A1 75A1 } Iron ships in force since 1869.

A1 A1 AE1 Wood or Composite Ships.

The figure 1 affixed to a character signifies that the vessel is well and sufficiently equipped; a line after A (thus, A—) that the equipment is deficient from that required by the Rules.

A black ring over the figure 1 (thus, Φ) indicates defects reported in the masts or rigging of a Sailing ship imperilling the vessel's safety.

A red ring over the figure 1 (thus, Φ) indicates defects reported in the engines and boilers of a steam ship imperilling the vessel's safety.

Classification of Underwriters' Registry.

A* A* Iron or Steel Vessels built in excess of Rules and of extra quality of Iron.

A* A1* A1 A1 A A Characters of Iron, Steel, or Composite Vessels built according to the Rules.

Vessels classed in Red have been built under inspection of Surveyors to Liverpool Registry.

The Classification Columns, when left blank, indicate Vessels never Classed by the Society.

In Col. 8 (Sailing Vessels), Col. 7 (Steamers), three dots ... indicate that the Vessel had a Class at one time, but it has been withdrawn at Owner's request.

In the same Column **Lv** signifies the classification of the Underwriters' Registry, and the letters *a, b, c, &c.*, indicate the letters and equipment numbers in Table No. 22.

A black line with date under it in Classification Column (thus, 3,85) indicates that, at that date, the Vessel, from reported defects, was not entitled to a Character in the Register Bk.; a red line with date (thus, 3,85) indicates that Class was withdrawn from non-compliance, at that date, with Society's Rules.

A date in Classification Column, without character, indicates that the Class has expired, or been withdrawn from absence of Survey, or non-payment of fees.

† in the Classification Column signifies that the vessel was built under Special Survey.

LMC—Machinery certified by the Engineer Surveyors to Lloyd's Register.

B&MS—Boilers and Machinery Surveyed and reported to be satisfactory by the Engineer Surveyors to Lloyd's Register.

† **Special Survey of Machinery or Boilers during construction.**

A&CP—Anchors and Chains Proved at a Public Machine recognised by Lloyd's Register.

LA&C—Anchors and Chains Proved at a Machine under the superintendence of Lloyd's Register.

SS & R.—Special Survey. **Rest.**—Restored.

Cont.—Continued. **HT.**—Half-Time Survey.

LLOYD'S REGISTER

OF

BRITISH AND FOREIGN SHIPPING.

PUBLICATIONS ISSUED BY THE COMMITTEE OF LLOYD'S REGISTER.

LLOYD'S REGISTER OF SHIPPING, issued annually on the 1st of July. This Book contains the Names, CLASSES, and detailed information concerning the Vessels classed by Lloyd's Register and the late Underwriters' Registry for Iron Vessels; and in addition, as far as possible, particulars of EVERY SEA-GOING VESSEL in the world of 100 tons and upwards.

In the Appendix will be found a list of Owners of Ships recorded in the Register Book with the names and tonnages of their vessels; details of the Dry and Wet Docks, Floating Docks, Pontoons, Patent Slipways, Tidal Harbours, Quays, &c., at all Ports in the World; a list of Telegraphic Addresses of all firms, &c., connected with Shipping (with the Telegraphic Codes severally employed), so far as ascertained; a list of Steamers arranged according to their gross tonnages; detailed Statistics respecting Merchant Shipping; and particulars of the WAR VESSELS BELONGING TO ALL NATIONS, &c., &c.

A list is also printed in the Appendix of the Members and Subscribers of Lloyd's, and of the Agents to Lloyd's.

TERMS OF SUBSCRIPTION:—For Individuals or Firms, £3 3s. per annum; for Public Companies or Public Establishments (not engaged in Marine Insurance), £10 10s. per annum. The Subscription of Marine Insurance Companies is regulated by the Committee on special application in each case, but is not less than £10 10s. per annum.

The Register Books of London Subscribers can be periodically posted by type, with additions and corrections, throughout the year; but in the case of Books thus posted, supplied on a Subscription of £3 3s. per annum, an additional charge of £1 1s. per annum is made.

For the convenience of Subscribers not resident in London, or not having their Books posted, a Supplement, containing the additions to, and corrections in the Register Book, is issued fortnightly, and forwarded gratis to Subscribers.

The Rules for the Building and Classification of Ships are supplied with the above work.

THE RULES FOR THE BUILDING AND CLASSIFICATION OF SHIPS are also published separately.

PRICE:—Rules for Wood and Composite Ships, 5s.; Rules for Iron and Steel Ships, 5s.; Complete Rules, 10s.

YACHT REGISTER, issued annually on the 1st of May. This book contains, in addition to the Names, CLASSES, and detailed information relating to Yachts classed by the Society, the Names, Dimensions, &c., of all British and Foreign Yachts, the particulars of which are known; also, in an Appendix, a List of the various Yacht Clubs, with Illustrations of their respective Flags; an illustrated List of the RACING FLAGS of Yachts; an Index of Signal Letters, a List of Yachts, the names of which have been changed, a List of Yachts arranged according to Tonnage, an alphabetical List of the Names and Addresses of Yacht Owners so far as they can be ascertained, and a List of Yacht Builders and Designers, showing the Yachts which they have respectively built and designed, besides statistical and other interesting information.

The price of the Society's Rules for the Building and Classification of Iron, Steel, Wood, and Composite Yachts is comprised in the amount of subscription.

TERMS OF SUBSCRIPTION:—15s. per copy for Individuals or Firms; and for Yacht Clubs, Marine Insurance Companies, and other public bodies, not less than £2 2s. per annum. For the latter Subscription two copies of the work will be supplied, if required.

THE RULES FOR THE BUILDING AND CLASSIFICATION OF YACHTS are also published separately.

PRICE:—2s. 6d. per copy.

KEY TO THE REGISTER.

1892-93.

KEY TO SYMBOLS OF CLASSIFICATION IN REGISTER BOOK.

CLASSIFICATION OF LLOYD'S REGISTER.

- A** Character of Iron vessels built with thicker plating than the Rules *now* require.
A | **A** | **A** | Characters of Iron ships built according to the Rules of the Society in force between the years 1864 and 1871.
A1 Without a numeral prefixed, character of Iron vessels built for a special purpose.
100A1 **95A1**
90A1 **85A1** Characters of ships built of Iron or Steel according to the Rules of the Society for Iron ships since 1869.
80A1 **75A1**
A1 Character of Wood or Composite ships of the first class well and sufficiently equipped. The figures in column 5 (Steamers), column 6 (Sailing Ships) prefixed to the character indicate the term of years for which the vessel is at present classed : thus 11A1, Cont 6A1, Rest 6A1. (See note under Cont and Rest). The figures in column 7 indicate the expired terms of years assigned, originally if on the first line, and on continuation if on lower lines.
A1 Character of ships which have passed period assigned on original Survey, or Continuation, or Restoration, and of ships, not having an original Character, which are found to be fit to carry dry and perishable goods. The term of years for which the character A in red is assigned appears under the class in column 5 (Steamers), column 6 (Sailing Ships) : thus **SS.Ply.88-6yrs**.
E1 Character of ships fit for conveyance of dry and perishable goods on short voyages. The term of years for which the character AE is assigned appears under the Class in column 6 (Sailing Ships) : thus **SS.Ply.88-4yrs**.
E1 Character of ships which have been found on survey fit for the conveyance of cargoes not in their nature subject to sea damage.
 The figure 1 affixed to a character signifies that the vessel is well and sufficiently equipped. A line after the A (thus, A—) signifies that the equipment is deficient from that required by the Rules.
 A ring over the figure 1, thus **Ⓛ** indicates defects reported in the masts or rigging of a Sailing ship imperilling the vessel's safety.
 A red ring over the figure 1, thus **Ⓛ** indicates defects reported in the engines and boilers of a Steam ship imperilling the vessel's safety.

CLASSIFICATION OF THE UNDERWRITERS' REGISTRY.

- A1***, **A1*** Characters of Iron or Steel Vessels built in excess of the Rules and of extra quality of Iron.
A1*, **A1***; **A1**, **A1**; **A**, **A** Characters of Iron, Steel, or Composite Vessels built according to the Rules.
 Vessels classed in Red have been built under the inspection of the Surveyors to the Liverpool Registry.
 The figure 1 or 2 affixed to Symbols of Classification signifies the Character of Equipment.
 The figures in the 17th (Sailing Vessels) or 16th (Steamers) Column represent the mean drafts corresponding to an immersion of 65, 70, 75, and 80 per cent respectively, as assigned by the Underwriters' Registry, but these drafts do not indicate approved load lines.

All vessels are required to be surveyed periodically. The date of Survey only certifies to their state of efficiency at that time.

N.B.—In order to prevent the disappointment arising from Ships losing their Characters from want of survey, it is hereby intimated that the duty of giving NOTICE OF PERIODICAL SURVEYS required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

8.B	6	5	Vessel's class withdrawn from non-compliance at date mentioned with the Society's Rules.

The Figures under a Character denote the date when the Vessel was last Surveyed.

The 6th, 7th, and 8th Columns (Sailing Vessels) or 5th, 6th, and 7th Columns (Steamers) left blank, indicate that the Vessel has never been Classed in the Register Book.

When the sixth (Sailing Vessels) or fifth (Steamers) column is left blank except as regards the date of Survey last recorded, it indicates that the Character has expired or been withdrawn from absence of Survey, or on account of non-payment of fee due in the case.

The dates following the name of the Master in Col. 3 (Sailing Ships) and Col. 2 (Steamers) indicate (1) the year when the Master entered the service of the present Owner of the Vessel and (2) when he was appointed to the Vessel.

While the Committee take all means possible to obtain correct information concerning the Vessels entered in the Society's Register Book, it will be understood that in the case of Vessels not classed by the Society they cannot vouch for the complete accuracy of all the particulars given in respect of dates of metalling, tonnage, dimensions, decks, classification, &c.

MARQUES, etc.							
+	6	5	Navires construits sous surveillance spéciale.	...	8	7	La cote du navire a été retirée à la demande de l'armateur.
+	6 ou 7		Machines construites sous surveillance spéciale.	— (après la cote)	6	5	L'équipement du navire est défectueux en qualité ou en quantité.
+NE&B	6 ou 7		Nouvelles machines et chaudières-construites sous surveillance spéciale.	1	6	5	Le chiffre 1, placé après la cote, signifie que le navire est bien et suffisamment équipé, suivant Table No. 22.
†	4	3	A la suite du mot salted (salé) signifie que les barrots du navire n'ont pas été salés.	⊖	6	5	Un cercle noir, à travers le chiffre 1, indique des défectuosités signalées dans la mâture compromettant la sécurité du navire.
5.86	6	5	Le navire, par suite de défectuosités signalées n'avait pas droit à une cote dans le REGISTER-BOOK, à la date mentionnée.	⊕	6	5	Un cercle rouge, à travers le chiffre 1, indique des défectuosités signalées dans les machines ou chaudières d'un Bateau à vapeur, de nature à compromettre la sécurité du navire.
3.88	6	5	La cote du navire lui a été retirée, pour ne pas avoir satisfait aux règlements de la Société à la date mentionnée.	2 ou 3 Dks	4	3	Deux ou trois ponts bordés.
				2 ou 3 tr B.	4	3	Deux ou trois rangées de barrots, avec ou sans bardage.
				3 decked-rule.	4	3	Construit en conformité avec le règlement pour navires à trois ponts, Section 41.

Les chiffres sous la cote indiquent la date à laquelle le navire a été visité pour la dernière fois.

Les 6^{me}, 7^{me} et 8^{me} colonnes (Navires à voiles), ou les 5^{me}, 6^{me} et 7^{me} colonnes (Bateaux à vapeur) laissées en blanc, indiquent que le navire n'a jamais été cote dans le Register-Book.

Lorsque la 6^{me} colonne (Navires à voiles), ou la 5^{me} colonne (Bateaux à vapeur) est laissée en blanc, à l'exception de ce qui regarde la date de la dernière visite enregistrée, cela indique, que la cote est expirée, ou a été retirée pour manque de visite, ou par suite de non paiement des honoraires dus dans ce cas.

Les dates qui suivent le nom du Capitaine dans la colonne 3 (Navires à voiles), ou dans la colonne 2 (Bateaux à vapeur) indiquent (1) l'année pendant laquelle le Capitaine est entré au service de ses armateurs présents, et (2) celle où il a été nommé au commandement du présent navire.

Bien que le Comité prenne toutes les mesures possibles, pour obtenir des renseignements exacts sur les navires énumérés dans le Register-Book de la Société, il est à noter que dans le cas où les navires ne sont pas cotés par la Société, elle ne peut garantir la complète exactitude de tous les détails donnés relativement aux dates du doublage, au tonnage, aux dimensions, aux ponts, à la classification, etc.

WB=DB. 70ft. 80 tons : indique double fond ayant une longueur de 70 pieds, pouvant contenir un volume d'eau de 80 Tonneaux.

WB=DB. a. 58ft. f. 40ft. 180 tons : indique double fond arrière de 58 pieds, et avant de 40 pieds de longueur, d'une contenance totale de 180 Tonneaux.

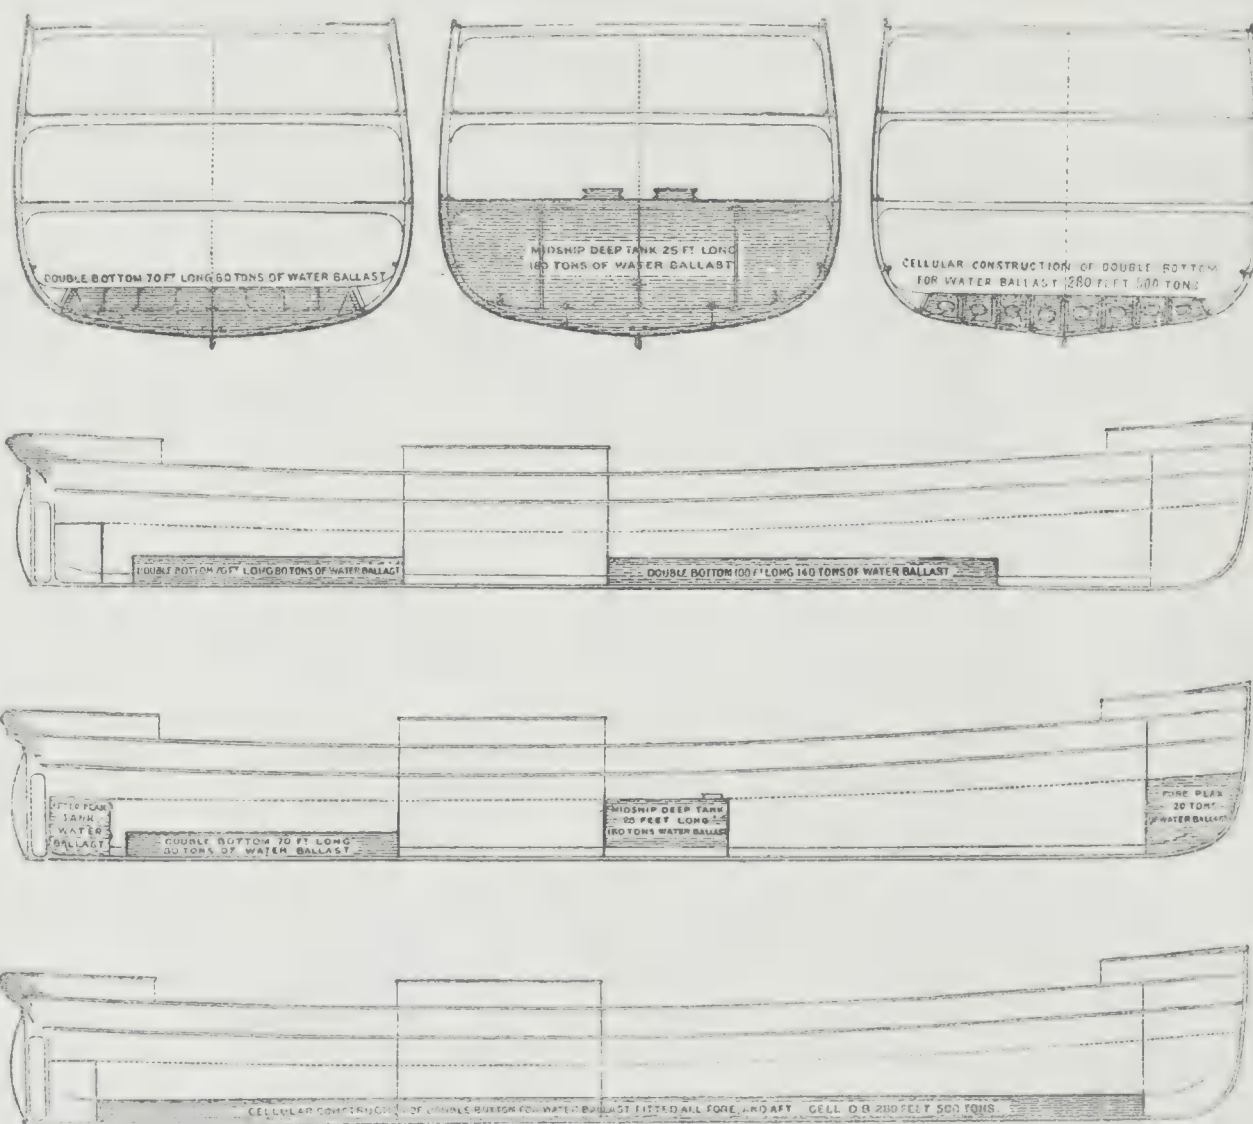

WB=DB. a. 72ft. s. under E. & B. 28ft. 260 tons : indique double fond arrière de 72 pieds, et sous les machines et chaudières de 28 pieds de longueur ; contenance totale 260 Tonneaux.

WB=Cell D.B. 280ft. 500 tons : indique construction cellulaire du double fond, ayant une longueur de 280 pieds, contenance 500 Tonneaux.

WB=F.P.T. 20 tons : indique cale à eau avant, d'une contenance de 20 Tonneaux.

WB=A.P.T. 8 tons : indique cale à eau arrière d'une contenance de 8 Tonneaux.

WB=M.T. 25 ft. 180 tons : indique cale à eau milieu, de 25 pieds de longueur et d'une contenance de 180 Tonneaux. Voir les diagrammes.

N.B.—Lorsqu'une partie du lest d'eau enregistré est biffée à l'encre rouge, ainsi : WB=DBa45ft., ~~58ft. f. 40ft.~~ (etc.), cela signifie, que le navire a les instal-
soutes dans l'étendue indiquée, mais qu'à la date de la dernière visite, la partie biffée n'était pas employée pour lest d'eau, et que les tuyaux, etc., en
enlevés.

NOTE EXPLICATIVE CONCERNANT LE REGISTER.

1892-93.

NOTE EXPLICATIVE DES MARQUES DE CLASSIFICATION DANS LE REGISTER-BOOK.

CLASSIFICATION DU LLOYD'S REGISTER.

* **A** Cote des navires en fer, construits en tôles plus fortes que celles qui sont exigées par les règlements actuellement en vigueur.

A | **A** | **A** | Cote des navires en fer construits conformément aux règlements de la Société, en vigueur de 1864 à 1871.

A1 Non précédé d'un chiffre, cote des navires en fer, construits pour un service spécial.

100A1 95A1
90A1 85A1
80A1 75A1 Cotes des navires en fer ou en acier, construits conformément aux règlements de la Société pour navires en fer, depuis 1869.

A Cote des navires en bois et composites de la première classe, bien et suffisamment équipés. Les chiffres de la 5^{me} colonne (Bateaux à vapeur) et de la 6^{me} colonne (Navires à voiles), précédant cette cote, indiquent le nombre d'années pour lequel le navire est classé présentement : ainsi : 11A1, Cont. 6A1, Rest. 6A1, (voir la note pour Cont. et Rest.) Les chiffres placés dans la 7^{me} colonne (Bateaux à vapeur) et dans la 8^{me} colonne (Navires à voiles) indiquent les années expirées de la période de durée assignée à la cote originelle, si le chiffre est placé à la première ligne, et de la période de continuation, s'il est placé à une des lignes en-dessous.

A1 Cote des navires qui ont dépassé la période de durée assignée à la cote par la visite originelle ou par celles de continuation ou de restitution, et des navires n'ayant jamais été cotés dans le Register, mais qui sont reconnus propres au transport de marchandises sèches et périssables. Le nombre d'années pour lequel la cote A en rouge est assignée, est inscrit sous la cote dans la 5^{me} colonne (Bateaux à vapeur) et dans la 6^{me} colonne (Navires à voiles) ; ainsi : **8S.Ply.88-6yrs.**

E Cote des navires propres au transport de marchandises sèches et périssables pour de courtes traversées. Le nombre d'années pour lequel la cote E est assignée, est inscrit sous la cote, dans la 6^{me} Colonne (Navires à voiles) ; ainsi : **8S. Ply. 88—4 yrs.**

E1 Cote des navires qui, lors de la visite, ont été reconnus propres au transport de cargaisons qui par leur nature ne sont pas exposées aux avaries d'eau.

Le chiffre 1 ajouté à la cote, indique que le navire est bien et suffisamment équipé. Un trait après la lettre A (ainsi : A—) signifie que l'équipement est défectueux d'après les prescriptions du règlement.

Un cercle à travers le chiffre 1, ainsi **⊙**, indique des déficiences signalées dans la mâture ou dans le gréement d'un navire à voiles, de nature à compromettre la sécurité du navire.

Un cercle rouge à travers le chiffre 1, ainsi **⊙**, indique des déficiences signalées dans les machines et chaudières d'un Bateau à vapeur, de nature à compromettre la sécurité du navire.

CLASSIFICATION DU "UNDERWRITERS' REGISTRY."

A1*, **A1*** Cotes des navires en fer ou en acier, dans la construction desquels on a surpassé le règlement et employé du fer de qualité supérieur.

A1*, **A1***; **A1**, **A1**; **A**, **A** Cotes des navires en fer, en acier, ou composites, construits conformément au règlement.

Les navires cotés en rouge ont été construits sous la surveillance des Inspecteurs du Liverpool Registry.

Les chiffres 1 et 2 ajoutés aux marques de classification, signifient la cote de l'équipement.

Les chiffres placés dans la 17^{me} colonne (Navires à voiles) et dans la 16^{me} colonne (Bateaux à vapeur) représentent le tirant d'eau moyen, correspondant à une immersion de 65, 70, 75 et 80 pour cent. respectivement, comme il est assigné dans le "Underwriters' Registry"; mais ces tirants d'eau n'indiquent point les lignes de charge admises.

Tous les navires doivent être visités périodiquement. La date de l'expertise ne certifie que l'état des navires à l'époque de la visite.

N.B.—Afin d'éviter les mécomptes provenant de la déchéance de la cote d'un navire pour avoir négligé la visite, avis est donné par la présente, qu'il est du devoir d'armateurs, capitaines ou agents, de demander les visites périodiques imposées par le règlement. Il en est de même dans le cas où des réparations sont devenues nécessaires par suite d'avaries ou pour une autre cause quelconque.

* * * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

* * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

*. Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be done under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Surveys hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage or other causes, rests with the Owners, Masters, or Agents.

* Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

* * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

* * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.

* * Additional Ships are inserted in the Supplement at the end of the Register.

N.B.—All vessels assigned a character in the Register Book are required, under the Rules of the Society, to be submitted to Surveys by the Society's Surveyors periodically (annually, if practicable), in order to its being seen that their efficiency is duly maintained. It is also a condition that all repairs of ships or machinery required at ports where there is a Surveyor to this Society, in order to their retaining the characters assigned to them in the Register Book, must be carried out under the inspection and to the satisfaction of the Society's Surveyors. Ships or Machinery repaired at ports where there is no Surveyor to this Society must be surveyed by one of the Society's Surveyors at the earliest opportunity.

The Date of Survey of a Ship only certifies to its efficiency at that time.

In reference to the Rules of the Society, and in order to prevent the disappointment arising from ships losing their characters from want of Survey, it is hereby intimated that the duty of giving Notice of Periodical Surveys required by the Rules, or when repairs are necessary in consequence of damage, or from other causes, rests with the Owners, Masters, or Agents.
